# THE INTERNATIONAL INSTITUTE OF WELDING

---

The International Institute of Welding (IIW) is an international association focused on the exchange of knowledge in the field of welding and allied technologies. IIW is a not-for-profit organization, and our members are the associations representing the sectors of welding and allied processes in their countries.

Researchers, industry practitioners and educators, students and young professionals from over 53 countries worldwide are all part of the collaborative working platform of the International Institute of Welding (IIW). This unique international cooperation is achieved through annual and intermediate meetings of IIW working units and boards, technical networking, shared projects, events, publications and web-based communications. The outcomes are shared worldwide – promoting optimum use and innovation in joining technologies, international standardization, and quality through education, training, qualification and certification of individuals and companies for a safe and sustainable world.

# THE INDIAN INSTITUTE OF WELDING

---

The Indian Institute of Welding (IIW-India) is a premier professional body of welding fraternity, devoted to the promotion and advancement of welding science and technology. It was established on 22nd April 1966, with its registered office at Kolkata and celebrated Diamond Jubilee in 2026. Presently IIW-India is having 15 Branches and several Students' Chapters, spread all over India. It has more than 5000 members, including around 150 industries as Industrial Corporate Member. The Institute publishes Indian Welding Journal, which has technical research papers of high standards, and published quarterly along with a specific section of American Welding Society (AWS). IIW-India is the only responsible member society of the International Institute of Welding (IIW) in India and has acquired the status of Authorised Nominated Body (ANB) to award internationally accredited professional Diplomas such as International Welding Engineer (IWE), International Welding Technologist (IWT) etc., and also acquired the status of Authorized Nominated Body for Company Certification (ANBCC) to certify industries in accordance with ISO 3834. The Institute conducts its own National Welding Training & Certification Scheme (NWTCS) and National Welding Inspectors' Certification Scheme (NWICS) through Authorised Testing Centres, which are accredited by NABCB. It is a member of Asian Welding Federation (AWF) since its inception, also associated with different educational institutes as Knowledge Partner and has mutual collaboration with different Industries and Associations.

## IC 2027 THEME & OBJECTIVES

---

The Theme "Welding Technologies in Energy Transition" reflects the pivotal role of welding and joining technologies in enabling the global shift towards sustainable, secure, and low-carbon energy systems. As energy infrastructure evolves to support renewable energy, hydrogen, nuclear, electric mobility, energy storage, and other emerging sectors, advanced welding technologies are becoming critical to ensure safety, reliability, efficiency, and long-term performance.

Over the past decades, welding science and technology have advanced significantly to address new materials, complex fabrication challenges, stringent quality requirements, and higher performance expectations associated with the energy transition. Innovations in advanced welding processes, automation, digitalisation, additive manufacturing, and smart fabrication are key enablers for developing resilient and globally competitive energy infrastructure.

The 7th International Congress (IC-2027) will provide a comprehensive international platform for professionals from industry, academia, and research institutions to exchange knowledge, share best practices, and discuss the latest developments in Welding Science & Technology supporting the energy transition. The Congress aims to foster global collaboration, strengthen technical capabilities, and support industries in meeting future energy challenges.

In line with its commitment to knowledge development and capacity building, IC-2027 will also host an exclusive Young Professionals' International Conference (YPIC), offering an active forum for young engineers, researchers, and professionals to engage, innovate, and contribute to the future of welding and joining technologies.

# INVITATION TO AUTHORS

Welding technologists, scientists and professionals who are interested in presenting their original work and experience as technical papers in the Seminar are requested to send their abstract(s) of the paper(s), in any one of the suggested theme topics. Selected good quality papers will be published in the special issue of "Welding International" a peer-reviewed journal. "Welding International" is abstracted and indexed in Citation Index (ESCI) as well as Scopus. This is a unique opportunity to share your insights, connect with peers, and gain recognition from experts in the welding community.

## TOPICS TO BE DISCUSSED

Advanced Welding and Cutting Processes for Energy Applications

Welding Design, Fabrication, Automation and Simulations.

Welding of Materials for Renewable, Hydrogen, Nuclear and Energy Storage Systems

AI in welding

Automation, Robotics and Digitalization in Welding and Fabrication

Industry 4.0, Internet of Things (IOT), its applications and benefits to Welding & Manufacturing Industry

Additive Manufacturing and Smart Fabrication Technologies

Skill Development, training and education in Welding

### THE GLOBAL STAGE FOR WELDING, JOINING, AND FABRICATION EXCELLENCE.

The WELDINDIA exhibition is a premier international event dedicated to welding, joining, and allied technologies. It brings together industry leaders, innovators, researchers, and solution providers from India and abroad, to showcase the latest advancements shaping the future of Welding industry.

From traditional arc welding to robotic and AI-driven joining systems, the expo covers every aspect of the industry – with a strong focus on productivity, safety, and sustainability.

## WHY EXHIBIT?

### Meet Global Buyers & Decision Makers

Expand your business network and secure high-value contracts from India & abroad

### Affirm Your Market Position

Enhance your brand credibility & gain a competitive edge

### Showcase your Expertise/Innovations on a Truly International Platform

Concurrent with the **7<sup>th</sup> International Congress (IC-2027)** for maximum exposure among global industry leaders, thought leaders and innovators

### EXHIBITORS PROFILE

Advanced Welding Processes	Heat Treatment	Paint & Powder Coating Applications & Eqpt.	Welding Consumables & Services
Additive Manufacturing Processes	Industrial Gases	Precision Metal Forming	Welding Electrodes
Aerospace Defence Nuclear	Laser Welding & Cutting	Quality Assurance	Welding Equipments & Services
CNC Machines	Machine Tools	Repair & Maintenance Equipments	Welding Metallurgy
Computer Aided Engineering & Manufacturing	Manufacturing & Fabricating Technologies	Robotics & Computed Aided	Welding of Non-metals
Education & Training	Materials Including Steel, SS, Aluminum & Other Non-Ferrous Metals	Soldering & Brazing Equipment	Welding Automation & Robotics
Electron Beam Welding (EBW)	Material Testing Equipments	Surface & Cladding Technologies	Welding Research & Development
Gas Equipment & Accessories	Non Destructive Testing Equipments	Thermal Spray Technologies	Welding Safety Equipment & Services etc.
Grinding Cutting & Preparation	Operating Plant & Equipmnet	Training, Testing & Welding Education	

### FOCUS AREAS

Welding automation & robotics	Smart joining for composites & alloys	Non-destructive testing innovations
Safety equipment & operator training	Collaborative R&D showcases	

### ATTRACTIONS

**Live Demonstrations & Interactive Zones :** See advanced welding machines, consumables, and automation systems in action.

**Expert Keynote Sessions :** Learn from global thought leaders about emerging trends and breakthrough solutions.

**Workshops & Technical Forums :** Gain hands-on skills in metallurgy, inspection, safety, and smart manufacturing.

**Networking Opportunities :** Meet manufacturers, suppliers, buyers, and R&D teams from across the globe.

**Innovation Showcase :** Explore sustainable welding solutions, lightweight material joining, and advanced inspection tools.

### VISITORS PROFILE

Manufacturers of:

Aerospace Automobile	Railway Coaches, Army Tanks, Aircraft & Aerospace	Thermal Wind Power & Solar Power, Heavy Fabrication	Oil & Gas	Power	Medical Equipment
Mining & Construction Equipments	Process Control, Instrumentation, Testing & Measuring Instruments	General & Heavy Engineering	Construction Machinery	Woodworking	Electronics
Materials Handling & Earth Moving Machinery Equipment	Iron & Steel Metal Products, Sheet Metal	Small & Medium Scale Industries, Defense	OEM's Process Control	Pharmaceuticals	Turbines

## WHY ATTEND?

- Stay ahead with first-hand exposure to cutting-edge technologies.
- Build valuable business connections with global industry players.
- Discover cost-effective, high-quality, & sustainable solutions.
- Be part of the future of manufacturing.

## Shell Scheme Facilities (per 9 sq. mt.):

Prefabricated stall with exhibitor's name on fascia, one table, two chairs, three spotlights, one 5A plug point, three exhibitor badges, one dustbin and carpet. Additional power e.g. for live operation of exhibits, is charged extra.

## Bare Space Scheme:

Exhibitors are wholly responsible for the design (organizer's approval required), construction and furnishing of their stall. Electricity during setup and exhibition is charged extra. Exhibitor badges are provided commensurate to area booked.

## Exhibition Partner

K and D Communication Limited (KDCL) is India's largest trade fair and investment summit organizer, with over three decades of experience and more than 100+ international B2B exhibitions to its credit. Its portfolio of acclaimed B2B trade show brands includes ENGIMACH, India Machine Tools Show, Rajkot Machine Tools Show, Pune Machine Tools Show and ITMACH INDIA.

Renowned for turnkey event management, KDCL has partnered with the Government of India, several state governments, leading trade associations, and global organizers. It was the first Indian organizer to develop an exhibition venue in PPP model with the government of Gujarat – the Helipad Exhibition Centre, Gandhinagar, one of India's premier exhibition hubs.

Dedicated to leveraging trade show platforms for economic growth, KDCL continues to serve as a trusted catalyst for industrial development, connecting businesses, markets and opportunities worldwide.
